## **DESCRIPTION:**

### **ONLINE in ZOOM - Meetings of approx. 2.5 hrs**

Most on Sundays, one on Saturday - all at: RIO DeJ 6:00 / LONDON 9:00 / BERLIN 10:00 / MOSCOW 12:00 / PERTH 17:00 / TOKYO, SEOUL 18:00 / SYDNEY 20:00

We looked for a time that suits the times zones where the most pulsers are, and before we fall asleep in Australia! It's works quite well like this.

**There will be NO ONLINE 'REPLAYS' (videos) of any kind. This is Live.**

### **WHAT IS THIS ABOUT**

*This online gathering is from the heart with the intention of deepening skills, learning and sharing. "Multi Level" refers to joining and serving various levels of experience and also expressing that with different kinds of tickets.*

*The course should help "downsize" and integrate all the information of the Tibetan Pulsing maps into a simple and workable approach to understanding one's own or another's nervous system more deeply through the pulse, in the eye-reading and in the sound resonance with mother Earth.*

***Above all we honour the different types of people we all are!** – DCs ... Emos ... Thinkers and Servers ... and the different ways this wonderful work is spreading!  
It's our intent to support that to flower.*

### **WHY DO THIS WITH US?**

*Someone younger said to us this year: "all you wise old guys who studied with Dheeraj are gonna die soon ... Why don't you bundle it up and share it all with us before it's lost?"*

*Some of us were born to read eyes and work with the complex maps of the nervous system ... others are great intuitive pulsers with less interest in finding words to explain the eye-map... there are so many ways of approaching and understanding... And ... there is something about grasping the structure of this whole **LIQUID SOUND SYSTEM PULSING MACHINE** which is needful and helpful for everyone! We aim to contribute to that and to entertain you well!*

*We may not have met with many of you in person, yet we are deeply connected with the Tibetan Pulsing Community and are in contact with friends, colleagues and clients all over the world. Over the past months we have been surprised and touched again and again by the silence and love which can flow in Zoom meetings. (We started online meetings for meditation and self-exploration a while ago.) These beautiful experiences gave birth to the idea of connecting our minds and hearts **in an online study course for Pulsers and to teach, refresh and polish the elements of Tibetan Pulsing, which can open the gates for a deeper transmission to happen.***

*Over the past 20 years Pulsers spread all over the world and new people joined! We kept hearing about a need for more sharing and further support **AFTER** the training.*

***YES! - we couldn't have done without post training support!***

*In fact we each attended about a dozen Intensives! ... we trained and worked in Dheeraj's crew in Poona in the Intensives and all 'the Waves'; we sat in hundreds of eye readings, always learning something new ... We both started our exploration with Dheeraj in 1988 ... and stayed closely attached with enthusiasm and determination during the "Poona years" of the Tibetan House and also later in Italy. Adima travelled with Dheeraj's Crew in Europe. We've experienced an unbelievable number of sessions and started running groups and NM-Waves in the mid 90s. Adima trained people in the Intensive work.*

***This much for our so called "experience".***

*We are enthusiastic and riding the bliss waves of Pulsing just as gloriously as in the beginning - and perhaps a little bit wiser.*

*By the way: we're both "Yellows" - a Tongue and a Stomach - at home with precision, sensitivity and an ability to **understand and combine the scientific and the intuitive.***

*In the world, in the stress of becoming something or having to make a buck, it can happen that the work "waters down" and becomes a bit "technical and mental."*

*Shortly before Dheeraj left us, he asked Adima in a private situation, to "protect my work and spread it in the way I want it spread".*

*Well, stating such a claim with no proof or witnesses may appear a little dubious - it is simply the truth. I (Adima) felt startled and overwhelmed by this request and at the time, was convinced that no one will believe he'd asked, so I kept rather quiet. I grew with it, failing and trying again to live up to the promise I gave him. In my heart the love, the warmth and light around this "mission" grew into a delight of gratitude.*

*We remember and love to share some "extras" – the juicy stories Dheeraj shared with us and which are not all written down. We were lucky to be there at the time and we're even more lucky to STILL  
**BE HERE NOW!***

***We received so much and are happy to pass it on abundantly***
